

Jack Miller

Strategy and transformation lead

Istanbul, Turkey | [jack.miller@jobluvo.com](mailto:jack.miller@jobluvo.com) | [linkedin.com/in/jackmiller](https://www.linkedin.com/in/jackmiller)

## EXPERIENCE

Head of Strategy and PMO, Arvento

Istanbul, Turkey, Mar 2022 to present

- Lead the strategy and PMO function for a telematics company with USD 140M revenue, reporting to the CEO, with a team of four strategy managers and two analysts.
- Designed and ran a 3 year cost transformation program across 4 business units that reduced operating cost by 11 percent (USD 9.2M a year) against a 12 percent target.
- Own the annual planning cycle: targets, initiative portfolio and budget with product and finance, presented to the board twice a year.
- Built the company OKR system from scratch in 2023, now used by 38 teams, with a quarterly review cadence chaired by the executive committee.
- Screened 14 acquisition targets in fleet software and prepared the investment case for the one that closed in 2024 (USD 18M).
- Set up the PMO: stage gates, a single initiative register and a monthly steering pack that replaced 6 separate reporting formats.

Senior Strategy Consultant, Deloitte Turkey

Istanbul, Turkey, Jun 2019 to Feb 2022

- Delivered 9 growth and operating model projects for clients in telecoms, retail banking and consumer goods, as workstream lead on the last 5.
- Led the market entry study for a regional bank's SME lending product: sized a USD 1.1B addressable market and built the 5 year business case adopted by the client's board.
- Redesigned the operating model of a 2,400 person retail bank division, cutting management layers from 7 to 5 and consolidating 11 regional units into 6.
- Ran the pricing workstream of a telecom postpaid relaunch, with a conjoint study of 2,000 customers, that lifted ARPU 6 percent in the first year.
- Managed teams of 2 to 4 consultants and coached 6 analysts through the firm's case review process.

Business Analyst, Pricing and Market Analysis, Turkcell

Istanbul, Turkey, Sep 2016 to May 2019

- Built and maintained the pricing model for the consumer postpaid portfolio (12 plans, 20M subscribers), with monthly elasticity updates from usage data.
- Ran the quarterly competitor and market share analysis presented to the CMO, drawing on regulator filings, panel data and internal churn figures.
- Wrote the business cases for 3 tariff launches, one of which added 400k net subscribers in its first two quarters.
- Automated the weekly pricing dashboard in SQL and Power BI, removing about 12 hours of manual work a week for the team.

Analyst, Strategic Planning, Garanti BBVA

Istanbul, Turkey, Aug 2014 to Aug 2016

- Supported the annual strategic plan for the retail banking group: data gathering, branch

network analysis and the financial model behind the 3 year targets.

- Prepared the monthly performance pack for the executive committee, covering 900 branches and 4 product lines.
- Modelled the branch consolidation scenarios that led to 60 closures with a 2 percent deposit loss against a 5 percent planning assumption.
